

## Spotlight on CSHQA

### Solution Toolkit:

Autodesk® Revit® and Ideate Sticky

## Ease Tedious, Time-Consuming Tasks with Ideate Sticky

With offices in Boise, Denver and Sacramento, [CSHQA](#) designs retail, healthcare, commercial, aviation, education, hospitality,

multi-family, civic and government facilities for companies across the United States and in Alberta and British Columbia. Its staff of more than 100 professionals includes electrical, communication, mechanical, plumbing, civil and structural engineers as well as landscape architects and interior designers. They work together to create smarter and better performing environments that enhance the way people live, work and play.

### A Focus on People

CSHQA is a full-service, award-winning design firm known for its quality designs and its support of energy efficiency and sustainability. It achieved this solid reputation by focusing on people: its employees and its clients.

“People at all levels—AITs, EITs, support staff and senior management— work together on project development and execution,” said Evelyn Peterson, Architecture - Revit Facilitator, CSHQA.

“We listen to our clients and to each other, so we can deliver high-value solutions to our clients.”

### A Focus on Technology

CSHQA professionals work with powerful technologies to design with greater accuracy and flexibility. One of those technologies is Autodesk Revit Software, another is Ideate Sticky. “I’m looking forward to expanding our use of Explorer as the value continues to grow,” said Dan. “Thank you for making such a reliable and useful solution.”

Ideate Sticky is a Revit add-in solution that combines the ease of editing in Microsoft Excel with the convenience of a sticky note. It enables users to link an Excel spreadsheet with non-BIM data such as code checklists, design data, consultant’s data, general notes, and matrix style data directly into Revit.

“Ideate Sticky is a great add-in for Revit. Our engineers love it,” said Evelyn. “Sometimes the architecture team use it as well.”

*“What used to be a tedious, time-consuming task is now done in just minutes.”*

### CSHQA and Ideate Sticky

“Collaboration is key to our teams’ ability to develop better concepts, stronger designs, and more efficient systems,” said Evelyn. “Ideate Sticky enhances collaboration by streamlining the process of disseminating non-BIM data. What used to be a tedious, time-consuming task is now done in just minutes.”

## About Ideate Software

Ideate Software allows Revit users to have unprecedented control over their data and solve persistent problems in Architecture, Engineering, and Construction (AEC) workflows. Ideate Software solutions enable Revit users to save time, increase accuracy, improve project deliverables, and elevate design.
